### Information from newly released MSA statement.

The requirement of contracting will be executed since January 1 2012. Before March 1, the vessels without contract with SPRO will be allowed to enter into the port in the first voyage. However, the contract must be concluded before the vessel departs from the port. The requirement of concluding contract with SPRO before entering into PRC port will be strictly executed since March 1, 2012.

For those ports without approved SPROs, the detailed requirements will be decided by local MSA.

For registration with China MSA, the contract between Operators and SPRO and LOA can be sent by fax and other proper methods.

We had prepared related circulars including a very detailed working procedure recently and released them to all owners who have interests to cooperate with us, you're recommended to review the "Newsletter" section on our website [www.cmsonline.net](http://www.cmsonline.net).

If any enquiry, please contact with us without hesitation.
